As we are to remember with Gratitude Our Royal Benefactress, the first Founder of this Noble Charity, so the Encouragement it has received

ceived since from HER ROYAL SUCCESSOR, claims a just Title to our Thankfulness and Obedience ; several Acts of Parliament having pass'd for its Advantage and Improvement, since HIS Happy Accession to the Crown, to which HIS MAJESTY has been pleas'd to add several other Instances of His Royal Favour towards it, Having most Graciously condescended to every thing that has been offer'd for the Improvement of the Revenue, and for the Benefit and Conveniency of the Corporation, to whose Care and Management the said Charity is intrusted.

Upon a View of the Acts of Parliament and Charter, the Reader will observe the noble Design of Establishing this Charity, and the great Caution that has been us'd to free it from any possible Imputation of Corruption or Partiality, whereof it may not be improper to give some short Account in this Place.

The Good Ends and Purposes of Establishing this Charity, are set forth at large in the Preamble to the Act 2° & 3° Annæ, Entitled An Act for making more effectual Her Majesty's Gracious Intentions for the Augmentation of the Maintenance of the Poor Clergy, &c. which is as follows :

and

The P R E F A C E. xiii

And whereas a sufficient settled Provision for the Clergy in many Parts of this Realm, hath never yet been made, by Reason whereof, divers mean and Stipendary Preachers are in many Places entertain'd to serve the Cures and Officiate there, who depending for their necessary Maintenance, upon the good Will and Liking of their Hearers, have been, and are thereby under Temptation of too much complying and suiting their Doctrines and Teaching, to the Humours, rather than the Good of their Hearers, which hath been a great Occasion of Faction and Schism, and Contempt of the Ministry: And forasmuch as Your Majesty taking into Your Princely and Serious Consideration, the mean and Insufficient Maintenance belonging to the Clergy in divers Parts of this Your Kingdom, has been most Graciously pleas'd, out of Your most Religious and Tender Concern for the Church of England (whereof Your Majesty is the only Supreme Head on Earth) and for the Poor Clergy thereof, not only to remit the Arrears of Your Tenth due from Your Poor Clergy, but also to Declare unto Your most Dutiful and Loyal Commons, your Royal Pleasure and Pious Desire, That the whole Revenue arising from the First-Fruits and Tenth of the Clergy, might be settled for a perpetual Augmentation of the Maintenance of the said Clergy, in Places where the same is not already sufficiently provided for: We Your Majesties most Dutiful and Loyal Subjects, the Commons of England in Parliament Assembled, To the End that Your Majesties most Gracious

This may suffice in this place, to show the good End and Design of this Charity thus Settled and Establish'd.

Upon a View of the Charter, the Reader will observe, that the Commissioners consist of the Principal of the Nobility and others, Great Officers of State, Bishops, Deans, King's Council, Mayors of Cities, &c. who are to meet at such times and Places, as by

The Rules and Orders made for the Distribution of the Charity, and Encouraging Benefactions, are so plain and obvious, that they need no enlarging upon in this place; and the meanest Reader cannot possibly overlook the Justness and Harmony of them. STATE
OF THE
BOUNTY
OF
Queen ANNE.

NUMB. I.

An Account of some of the most remarkable Transactions of the Governors of Queen ANNE's Bounty, &c. From the Time of their Incorporation, down to the End of the Year, 1718.

THE Late Queen having signified to the Parliament Her Design of settling the Revenues of *First-Fruits* and *Tenths*, for Augmenting the Maintenance of the Poor Clergy, there was an Act passed accordingly in the Second and Third Years of Her Reign, Intituled, *An Act*
B for

2 *A State of the*

for the making more Effectual Her Majesty's Gracious Intentions for the Augmentation of the Maintenance of the Poor Clergy; By Enabling Her Majesty to Grant in Perpetuity the Revenues of First-Fruits and Tenths, &c.

By Vertue of that Act, the Queen was Impower'd to vest in Trustees, by Her Letters Patents, her whole Revenues of First-Fruits and Tenths, for the Purposes in the said Act mentioned: Which Letters Patents bear Date the Third of November, in the Third Year of Her Reign. *Vide the Abstract of the said Act, and the Letters Patents, N°. II.*

The first General Court holden by the Governors of the Bounty, &c. was at the Prince's Chamber joining to the House of Lords, on the 14th of December, 1704; where, in a full Meeting, the said Letters Patents were read, and the Officers appointed by the same, to wit, the Secretary and Treasurer Sworn, and the Lord Arch-Bishop of Canterbury was desir'd to wait on the Queen, and to beg of Her Majesty the Use of the New Buildings joining to the Banqueting-House for the meeting of the Governors, and for Offices for the Secretary, Treasurer, and their Clerks; which Her Majesty was Graciously pleased to Grant, and further to give Directions, that the Lord Chamberlain would furnish those Rooms out of the Royal Wardrobe for that purpose.

The

Bounty of Queen ANNE. 3

The next General Court was accordingly held at the said Buildings, on the 11th of January, 1704. And on the 22d of the said Month, the Draught of a Seal was agreed upon, and it was ordered to be made of Silver. The Legend of the Seal, was *Gubern. Munif. Anna Regina Pauper Cler.*

There was likewise a standing Committee appointed for preparing Rules and Orders, &c.

As also a Message sent to the Barons of the Exchequer, desiring them to direct the proper Officers to lay before the Board, an Account of First-Fruits and Tenths, and of all Arrears and Incumbrances, &c.

At the next Meeting, viz. 22d February following the Governors directed an Inquiry into the Yearly Maintenance of all Ministers throughout England and Wales, whose Benefices exceeded not 80 l. per Annum (pursuant to the Directions of the Charter) and desired the Lords the Bishops to make Returns of the same against the 30th of November following. Note, *The Bishops Returns about the same, were all entered into a Book, and presented to the Queen December 1707.*

In the Month of December, 1705, a Committee was appointed to consider of the Arrears upon the Grants and Pensions payable out of the First-Fruits and Tenths, and to receive Proposals from the Grantees concerning the Payment of the same.

N. B. By Vertue of this Appointment, the Lady Waldgrave was Treated with for her Arrears; and the same, together with the growing Annuity, to the End of the Terme in her Grant, amounting in the whole to 8363 l. 8. s. 1 d. were purchased, in the following Year, (The Rights and Claims of All, having Annuities or Pensions, being exprefly saved by a Clause in the above-mentioned Act.)

In the following Month the standing Committee were impowered to receive any Propofals that might be made to them for the Advantage of the Poor Clergy, and to prepare Business for the General Courts, &c.

In September 1706, an Order was made for Procefs to go out againft the Collectors, &c. of the Tenths, if they did not immediately enter upon their Accounts.

In the faid Year, 1706, a Thoufand Copies of the Charter were printed at the Charge of the Governors, in order to publish the De-
sign of their Constitution.

About the fame time likewise, viz. In the Months of January, February and March, 1706, the Governors Addrefs'd the Queen for Leave to bring into Parliament a Bill, for difcharging all Livings with Cure of Souls (the Tenths of which were vefted in the Corporation) not exceeding the true Yearly Value of 40 l. from the Payment of First-Fruits
and

Bounty of Queen ANNE. 5

and Tenths, and all Arrears thereof for Ever, This being an immediate Advantage to those poor Livings before any Augmentation could be made: To which Her Majesty was pleased to consent. And such a Bill being brought into the House of Commons, was passed with an Amendment of 50*l.* instead of 40*l.* *Vide* the Act Entitled, *An Act for discharging small Livings from their First-Fruits and Tenths.* Quinto Anna.

In May 1707, the Arch-Bishop of Canterbury acquainted the Governors, that the Queen had been pleased to give a further Mark of of Her Favour to the Poor Clergy, by discharging a Pension of 500*l.* per Annum, payable to the Keeper of the Records of the Tower out of the First-Fruits and Tenths.

In the beginning of the Year 1708, there was another Bill brought into Parliament and pass'd, Intituled, *An Act to Intarge the Time for returning the Certificates of all Ecclesiastical Livings not exceeding the Yearly Value of 50*l.** As also for discharging all Livings of that Value, from the Payment of First-Fruits, &c.

By Vertue of this and the above-mentioned Act for discharging small Livings, about 3900 poor Livings were discharged, and the Revenue of Tenths, which, when free from all Incumbrances, was computed at a Medium of 20 Years, to amount

about 13,000 l. per Annum, was reduced to about 10,000 l. per Annum.

In January 1708, the Governors ordered the Officers of the First Fruits to prepare a new Book of First Fruits and Tenths, in which the Livings that remain'd in Charge, were to be distinguished from the Discharged.

N.B. The said Book was prepared as soon as the Bishops had made the Returns, and delivered to the Governors, which was afterwards published by Mr. Edon, 1711.

In July, 1709, the Arch-Bishop acquainted the Board, That the Queen had signified to him Her Pleasure to know what the Governors had done ever since their Establishment, with respect to the Poor Clergy, &c. Whereupon it was referr'd to a Committee to prepare a State of the Affairs of the Corporation, in order to be laid before the Queen. *Vide the Representation, N^o VII.*

In March 1711, the Lord Arch-Bishop of York was desired to represent to the Queen, the Inconveniencies resulting from the present *Quorum* of the Governors, to wit, a Bishop, a Judge, and a Privy Counsellor, who must be always part of every Court, and the want of a New Charter on other Accounts, &c. Which Matters the Queen referr'd to the Attorney General.

About

About the End of the Year 1712, the Rules and Orders for the Distribution of the Queen's Bounty, &c. were settled and agreed to by the Corporation; and being laid before the Queen for Her approbation, were afterwards confirmed by Her Majesty under Her Great Seal. *Vide* the Rules, N^o VIII.

In the Year 1713, the Secretary was ordered to prepare two Lists of small Livings, in order to their being Augmented: The First, Of such as did not exceed 10*l.* *per Annum*: to which, according to the Rules before-mentioned, two Thirds of the Yearly Income at that time were appropriated: And the Second, Of Livings not exceeding 35*l.* *per Annum*, That being then the Value of Livings to be augmented in conjunction with private Benefactions.

N. B. *The said Rules have been since altered by His Majesty in December 1718. Vide the Rules and Orders, N^o VIII.*

At the latter end of this Year, the New Charter, together with the Rules and Orders, was laid before the Board, and 500 Copies of the Charter, and 10,000 Copies of the Rules and Orders were directed to be printed, in order to be dispers'd among the Clergy, and others, and also publish'd in the Gazette.

To this time, by reason of the Incumbrances upon the Revenue, and the Arrears of Pen-

sions to be discharged, very little each Year remained clear to be dispos'd of by the Governors; but now by degrees a competent Sum being provided, on the 20th of *March*, the Governors resolv'd upon the First distribution of the Queen's Bounty to the Poor Clergy, and order'd publick Notice to be given, that there was the Sum of 5,600 *l.* to be distributed in 28 Shares, &c. at 200 *l.* each, according to the Rules of the Corporation; and the said Rules were order'd to be again published in the *London Gazette*.

The Governors did at the same time direct, That a List of all such Livings in the Gift of the Crown, as did not exceed 10 *l.* per *Ann.* should be procur'd, to the End they might have the preference of Augmentation, pursuant to the afore-mentioned Rules: Which List was prepar'd and brought in accordingly.

At the beginning of the Year 1714, the Right Honourable the Lord Chief Justice *Parker* (now Lord High Chancellor of *Great Britain*) laid before the Board the Draught of a New Bill, which afterwards pass'd into an Act *Primo Georgii*, Entitled, *An Act for making more Effectual Her late Majesty's Gracious Intentions for augmenting the Maintenance of the Poor Clergy.*

An Abstract whereof see N°. II.

On

Bounty of Queen ANNE. 9

On the 13th of *April*, 1714, the said Lord Chief Justice was pleased to draw up, at the Board, Forms of Proposals, to be used by such as should offer Money, Land, or Tythes, in order to augment Poor Livings, jointly with the Governors of the Bounty, &c.

There were 10,000 Copies of those Forms ordered to be printed, to the End that they might be dispersed throughout England and Wales. Vide the said Forms, N^o IX.

N. B. *They were likewise published in the Gazette.*

In the Month of *October*, the Governors agreed upon an Address to His Majesty, congratulating His happy Accession to the Throne, praying His Protection, &c. Which His Majesty was pleased to receive very Graciously, on the 9th of *November* following.

In the same Month, the Governors settled the Number and Names of Livings to be augmented that Year; Nineteen of which being Livings not exceeding 10 *l. per Annum*, were chosen by Lot, and among them, the Three first were in the Gift of the Crown, according to their Rules. (*Vide the Rules.*) And it was Ordered, That all the Names of those Livings should be printed in the Gazette, and Notice given to the respective Incumbents thereof, that they should be allow'd 5 *per Cent.* Interest, payable Half-yearly, till the Principal could be invested in Lands, &c. by a Purchase.
The

The Governors having resolved to make the Augmentation of Livings perpetual, by purchases of Lands, or Tythes, or other Hereditaments, found it necessary to agree upon a Form of Queries, concerning the Nature, Value, and other Circumstances of the Estates proposed to be purchased for such Augmentations; in Consequence whereof, Mr. Barker, their Council, was ordered to prepare a Form, and to wait on the Lord Chief Justice, and Mr. Baron Price, for their Approbation.

N. B. *The said Form was afterwards Printed; and when any Estate is offered to be sold to the Governors, in order to augment a Living, the Bishop of the Diocese is usually consulted about a List of Persons in the Neighbourhood of the Benefice intended to be augmented, to whom a Letter of Inquiry is sent, Sign'd by the Governor then in the Chair for the Time being, and Counter-sign'd by the Secretary, and a Copy of the Queries afore-mentioned annex'd to the same: There is also some Eminent Lawyer in or near the said Parish or Curacy that is to be augmented, consulted about the Title, who is desired to send up Abstracts of the Title-Deeds, and his Opinion, under his Hand; and after the Governors have advised with their own Council, who are usually some of the King's Council (Members of the Corporation) or their Treasurer, (to whom is always committed the Care of Drawing the Conveyances)*

Bounty of Queen ANNE. II

ances) they proceed to purchase and convey the Estate to the Use and Benefit of the augmented Poor Living. (Vide the printed Queries and Letters of Enquiry, N^o. X.)

N.B. There were Twenty Poor Livings: not exceeding 10 l. per Annum, and Ten more not exceeding 35 l. per Annum, augmented in the Year 1715.

About the End of this Year, the Governors were acquainted, that Mr. Osbolston, a Merchant lately deceased, had bequeathed to this Corporation, and the Commissioners of Greenwich Hospital, to be divided equally between them, the Residuum of his Estate; Upon a division whereof, the Share of this Corporation amounted to the clear Value of 10,000 l. and upwards.

About the same time, an Order was made to apply to the Register of the Prerogative Office, for an Account of the Legacies that had been formerly bequeathed towards augmenting poor Livings, and that he would, from time to time, give the Governors an Account of all such future Legacies.

In May, 1716, Notice was ordered to be given in the Gazette, that the Sum of 4000 l. would be distributed after Michaelmas following, among Twenty poor Cures.

About the same time, Mr. Edon having been desired by the Governors to propose a better Method for collecting the Tenth, &c. He ac-

accordingly attended them with a Scheme for the same purpose, which was printed afterwards, and became the foundation of a Bill for the better Collecting a Revenue of Tenths, &c. *Vide* the Abstract of the Acts, N^o. II.

After the Summer Recess for this Year (*i. e.*) the 2d of Nov. following, the Governors having considered of Mr. *Edon's* Proposals, and of those made by several other Persons, to the same Effect, approv'd of the New Scheme for Collecting the Tenths, And Ordered the said Mr. *Edon* to prepare the Draught of a Bill, for the better Collecting and Managing the Revenue of the Tenths, and take the Opinion and Advice of Council thereupon.

On the 23d, the Governors agreed on Twenty poor Livings to be augmented this Year, pursuant to the Notice given thereof in May last.

In January, 1716, it being represented by the Treasurer to a Committee, that there was a considerable Sum of the Governor's Money lying dead in his Hands, and that it was the Opinion of the Committee, that the same should be put out to Interest; It was agreed, that all such Money should be immediately laid out in the Purchase of Orders in some of the Publick Funds; and that the said Orders (with other Papers, Deeds and Writings belonging to the Corporation) should be lock'd up in the Iron Chest with three Locks, and the three Keys thereof kept by the Lord Arch-Bishop

Bounty of Queen ANNE. 13

Bishop of *Canterbury*, the Lord Bishop of *London*, and the Treasurer of the Corporation.

At the End of this Year, the New Bill for collecting the Tenth, &c. having been perused by Mr. Serjeant *Pengelly*, being referred to the Right Honourable the Lord *Parker*, and approved of by the Governors, was ordered to be brought into Parliament, as soon as His Grace of *Canterbury* should have asked and obtained Leave of the King; which Leave being obtain'd, the said Bill was brought in accordingly, and passed into an Act, Entitled, *An Act for the better Collecting and Levying the Revenue of the Tenth of the Clergy.*

In the beginning of the Year 1717, it being observed, that many of the Incumbents of Poor Livings, from time to time augmented by this Corporation, with the Bounty of *Queen Anne*, were somewhat remiss in looking out for Purchases of Lands and Tythes; and the Board being sensible of the great Inconveniencies likely to result from their delay, on account of the Rise of Land, and Fall of Money, order'd the Secretary to write to all those who had not sent up any Account of Lands to be purchased for Augmentations, that unless they made speedy Inquiries after such Purchases, the Governors would find themselves obliged to lessen the Interest they allowed them, viz. of 5 per Cent.

In

In the Month of *July*, in the same Year, the Governors were pleased to recommend to His Majesty Mr. *John Ecton*, then Deputy Remembrancer of the First Fruits, &c. for the Office of Collector General of the Revenue of Tenth, he having suggested to the Governors a better Method for Collecting the same; which was lately pass'd into an Act of Parliament.

His Majesty was pleased to bestow that Office soon after upon the said Mr. Ecton, pursuant to a Representation which was deliver'd to His Majesty from the Governors for that purpose.

In December 1717, the Governors agreed upon Augmenting 27 poor Livings, with the Revenue of the current Year.

In the same Month, Mr. *John Young*, Citizen of London, brought in a Legacy of 50 *l.* lately bequeathed to this Corporation by his Brother *William*, late an Inhabitant of St. James's Westminster.

In January following the Governors agreed to Address His Majesty, to bestow the Office of Receiver General of the First Fruits, then vacant, upon Mr. *Barker* their Treasurer: Which His Majesty was Graciously pleased to Grant upon Application made by the Governors on his behalf.

About the latter end of this Year 1717, it having been represented to the Board, that considerable Sums of Money were in great danger

Bounty of Queen ANNE. 15

of being lost, if the Officers to whom the Collection of the Tenths did formerly belong, were not called upon to Accompt with the Auditors of the Imprest: There was an Order made to direct Process to be issued out in a certain Time, against all such Persons concerned in the said Collection, as had not passed their Accounts to the Year 1716.

N. B. *This Order has been the occasion of the Payment of several Sums of Money into the Receipt of His Majesty's Exchequer, which with the diligent Execution of the New Act for Collecting the Tenths of the past Year, has enabled the Governors to augment 27 poor Livings with the Sum of 5400 l. out of their Revenues.*

Upon alteration of the Collection of the Tenths by the Act above-mentioned, the Governors were pleased to Order, that publick Notice should be frequently given in the Gazette and other News-Papers, of the Time and Place of the Payment of Tenths, to prevent the Clergy from suffering the Inconveniencies that might happen, in case the same were not paid in due time: *Which Publick Notice was given accordingly.*

In April 1718, the Governors came to a Resolution of allowing 5 l. per Cent. Interest for one Year more, from Michaelmas following, to such of the Clergy as were Entitled to the Bounty, for the Augmentation of whose Livings no Purchases had yet been found, the
Governors

Governors having been informed, that diligent Inquiry had been made for proper Purchases, by the Incumbents of the augmented Livings, and being convinced of the great difficulty (in some Places) of finding Purchases suitable to the Sums to be laid out, and agreeable to other Circumstances of the Places to be augmented.

In the Month of *July* this Year, the Governors were informed, that there was remaining in the Exchequer, of their Revenue, the Sum of 12,000 *l.* whereupon they were pleased to Order, that Notice should be given in the Gazette, that they would distribute 10,000 *l.* this Year, out of their Revenue.

In the Month of *October*, after the Summer Recess, the Governors being informed, that the Number of small Livings remaining still to be augmented, in conjunction with other Benefactors (for many of which Livings, Proposals had been received two or three Years past) requir'd more than the Sum they had allotted for Augmentations this Year, it was by them ordered, that Notice should be given, that the Governors would add 4000 *l.* more to the 10000 *l.* above-mentioned, towards the Augmentations to be made this Year.

At the same time, the Governors ordered the Secretary to apply to such of the Lords the Bishops as had made no Returns of the Valuation of small Livings, and desire their Lordships to transmit the same with all convenient

Bounty of *Queen* ANNE. 17

venient speed, to the end that such Curacies might in due time receive the benefit of Augmentation.

In *November* this Year, it appearing to the Governors, that several Proposals for augmenting poor Livings, had been postponed from Year to Year, because the said Livings exceeded the clear Yearly Value of 35*l.* respectively, which was beyond the Value by their then Fourth Rule to be augmented; and being sensible that it would be of Advantage to the Charity, to have the said Fourth Rule enlarged to fifty Pounds *per Annum*; And likewise considering that their Ninth Rule (whereby they were obliged to appropriate two Thirds of their Revenue Yearly to Livings not exceeding 10*l. per Annum*) was inconvenient, it being the occasion of postponing many Proposals that had been made for augmenting small Livings exceeding that Value, and so became a Discouragement to Benefactors; which would be remedied, if the said two Thirds were reduced to one Third. They therefore agreed to lay the same before His Majesty, praying that he would be pleased to make Alterations in the said Rules accordingly. To which Alterations His Majesty most Graciously condescended before the end of this Year.

It was likewise ordered in this Month, That whenever any Proposals were offer'd for augmentations of small Livings, an Inquiry should be

be made into the Allowances usually made to the Minister, of the Living intended to be augmented, and by whom the said Allowances were made, and for what time, over and above the certain Yearly Value of the said Living.

In the Month of *December*, the Governors proceeded to the Distribution of the 14,000*l.* appointed for this Year, wherewith Seventy Livings were Augmented as follows, *viz.*

To Livings not exceeding Ten	}	21
Pounds <i>per Annum</i> by Lot,

TO THE

QUEEN's most Excellent Majesty,

The Humble Representation of,
The Governors of the Bounty of
Queen ANNE, *for the Augmenta-*
tion of the Maintenance of the
Poor Clergy, &c.

I N Obedience to Your Majesty's Commands
signified to us at a General Court holden
in *White-Hall*, on the 1st of July 1709. by
his Grace the Lord *Archbishop* of *Canterbury*;
We the Governours of Your Majesty's Bounty to
the Poor Clergy, humbly beg leave to repre-
sent to Your Majesty, that after having
made an inquiry into, and procured an exact
List of all the Livings in *England* and *Wales*
under 80 *l. per Ann.* from the Lords the Bishops
of the respective Dioceses, pursuant to the Di-
rections of Your Majesty's Royal Charter, grant-
ed to us, and laid the same before Your Majesty ;
We have met in many General Courts, and
F Courts

Courts of Committees, to consider of, consult, advise, agree upon, and draw up proper and necessary Rules, Methods, Directions, Orders and Constitutions, for the better Rule and Government of our Corporation, and for receiving, accounting for, and managing all the Revenues granted by Your Majesty to us, and for the distributing, paying and disposing of the same, &c. and that having prepared and agreed upon some Rules hereunto annexed, relating to the Distribution of Your Majesty's said Bounty; We humbly beg leave to lay them before You, for Your Majesty's Royal Approbation.

We have also considered of the State of the Revenue of the First Fruits and Tenths, which Your Majesty has been most Graciously pleas'd to vest in Us for the Benefit of the Poor Clergy; the State of which Revenue, soon after opening our Commission, appear'd thus:

The First Fruits and Tenths computed at a Medium of Twenty Years, do amount one Year with another to about 17000 *l. per Ann.* But we found the said First Fruits and Tenths charged with Grants and Pensions, (several of 'em for Life) to the Value of about 11000 *l. per Ann.* and with an Arrear of the same amounting to about 21000 *l.* All which Arrear we have been discharging till very lately, and have also bought off the Lady Waldegrave's Pension of 1000 *l. per Ann.* granted unto her for a Term of Years, which with the 500 *l. per Ann.* payable to the late Mr. Petyt, (which Your Majesty was gra-

Bounty of *Queen* ANNE. 67

graciously pleased to discharge) reduces our Yearly payments to 9500*l.* or thereabouts,

As we found the Revenue incumber'd with the aforefaid Grants and Arrears thereof on the one Hand, so we likewise found on the other, that there was a very great Sum of Money due from the Clergy and their Predecessors, at the Time of Your Majesty's vesting the same in this Corporation: We have therefore spent much time in our enquiry after the same, and in distinguishing between the sperate and desperate Debts of the Clergy; and it appear'd to us, that almost all the Sums of Money due from the Predecessors of the present dignified Clergy, and Incumbents of Livings, were of the latter Sort.

Wherefore being extreamly Sensible, how heavy the Burden of the said Debts has lain upon the poor Clergy, upon the Account of which, many Persons have refused to take Institution of their Livings, least they shou'd be Obnoxious to the great Debts contracted by several of their Predecessors, and thereby ruine themselves and Families. And we being no less sensible how great the Expectation of the World has been (ever since our Incorporation,) and especially of the poor Clergy, to see and tast some of the happy Fruits of Your Majesty's unparalell'd Bounty to the Church;

We thought we cou'd not better consult Your Majesty's Honour, nor answer the Ends of our Establishment and Trust, than by find-

ing out some expedient for the present Ease and Relief of the Poorest of the Clergy ; and perceiving that the Revenue, and the Debts and Incumbrances thereupon, bore so near a Proportion to each other, that little or nothing cou'd be spared from thence to be distributed among the Incumbents of the smallest Livings ; the only Method remaining was by way of Augmentation, to discharge all Livings of such a Value, from the Payment of First Fruits and Tenths, and all Arrears thereof for ever ; and accordingly we most humbly applied for, and obtained Your Majesty's Gracious Permission, to bring into Parliament a Bill or Bills, for the discharging small Livings from the Payment of Tenths and First Fruits, and this hath been the Work of Two or Three Winters last past : And we find that out of near 10000 Benefices in *England and Wales*, about 4000 are now discharged, by Virtue of the late Acts of Parliament made for that purpose, and that in consequence of the said Discharge, the Yearly Revenue of Tenths only, which before did amount to about 12500 *l.* is now sunk to about 9500 *l.* and the Revenue of First Fruits is also fallen proportionably to the Number of Livings return'd to be under the improved Yearly Value of 50 *l.* which pay First Fruits. And to the End that we might render the remaining part of Your Majesty's Bounty as effectual as possible, for Your most Gracious Purposes ; We have frequently ordered Pro-
secu-

Bounty of Queen ANNE. 69

secutions in Your Majesty's Court of *Exchequer* against all Persons whatsoever, that are in Arrear for their First Fruits or Tenths, and several are now actually under Prosecutions; but it having been represented to us by the Officers of Your Majesty's *Exchequer* that they cou'd not send out Process against the Incumbents of any Livings, till they had distinguished, by the Bishops Returns, which were chargeable, and which not; nor cou'd the Bishops Execute such Process, till new Books of Tenths were made, and New Rolls of Livings chargeable with Tenths sent down to them. We desired the Barons of Your Majesty's *Exchequer*, to give the necessary Orders to the Officers of the First Fruits, to prepare a New Book of Tenths, which has been the whole Business of the last Year; and till that was done, we have been oblig'd to stop Process against all Incumbents of Livings with Cure of Souls; but we have actually prosecuted and recover'd several Sums of Money from several Dignitaries of the Church, or their Executors.

We have also from time to time receiv'd several Proposals for the Improving and rendering more effectual Your Majesty's great Charity, to the Clergy, and the same are now under Consideration: But upon this Occasion we humbly beg leave to represent to Your Majesty, that the Obligation we lie under by our Constitution of holding no Court without the Assistance of a Bishop,

a Privy-Councillor and a Judge or Queen's Council, has so often put a stop to our doing any Business, either in *Winter*, when Your Majesty's Service in Parliament, Councils, or Courts of Justice, requires their Attendance; or in *Summer*, when the Lords the Bishops are visiting their respective Dioceses, and the Judges in their Circuits, and Your Majesty's Court and Council remov'd from Town: That we most earnestly beseech Your Majesty to allow us to consider of, and propose to Your Majesty some proper Methods to Obviate those, and other Inconveniencies of our present Constitution.

January 19.

By Order of the Governors,

(L.S.)

John Chamberlayne
Secretary.

Directions for the better Execution of the Commission, to Inquire into the Value of Small Livings.

THAT as soon as conveniently may be, the Commissioners, or a proper Number of them, would meet together, to consider of the Time and Place of their Meeting the Clergy, and of any other Preliminary Matters that may be necessary to be considered of.

That when they have agreed upon these things, they send the *Letter* appointed to be sent to the Clergy, and give them at least a Month's Notice before-hand of the Time and Place in which they are to appear, assigning one Day to as many as they think they shall be able to dispatch that Day, and a different Day or Days to the rest, as they judge will be most Convenient.

That in their Inquiries upon Oath, and otherwise, they be as particular as they can to ask Questions distinctly about the several Branches that make up the Value of the Living; such as the Demesnes, the Glebe, the Tythes of all sorts, Pensions, Rents, Offerings, *Easter Dues,*

Dues, and all other things whatever that can legally be demanded and recovered.

That they take what Care they can, that the Witnesses, whether brought in by the Ministers, or called by themselves, be credible Persons; but that they avoid as much as possible giving any Oath to the Ministers; because the taking Oaths in a Case where their own Interest is concern'd, may expose them to the Censure of many, who are apt to think and report their Livings to be better than they are.

That in forming their Judgments of the Value of the Livings, they do not consider voluntary Gifts or Contributions, or any thing of that kind, but only and all such things as are perpetually annexed to the Living, and which can legally be demanded.

That because the Increase and Product of some things is uncertain, and the Prices of all things are so, they consider, as well as they can, of what Value the Living may have been one Year with another for the last Seven Years; if the Living has been let, the Commissioners ought to ask, whether besides the Rent they did not give some Fine.

That in making Deductions out of the Value of the Livings, they do not consider the Charge of Curates, unless where there are more Churches than one in the same Parish, which cannot be served by one Person, nor the King's Taxes, nor Poors Rates, nor Charges

for Repairs; but only Pensions, Procurations, and Synodals, and such other Things as are certain and perpetual Charges upon the Living.

That where Livings are perpetually united, so that there needs but one Institution and Induction, they be considered as one, and valued together.

That where Livings are vacant, or are held by Sequestration, the Commissioners inform themselves as well as they can from those that serve the Cure, the Church-Wardens, or any other Person.

The Commissioners are desired to act with a conscientious and tender Regard both to the Clergy, who are by the Act intended to be excused the Payment of First Fruits and Tenths, that none may continue to pay, who are designed to be excused; and also to the Queens Bounty, and to the poorest of the Clergy, who will be defrauded of all that which shall be lost, by excusing those Livings, which were not intended to be excused by the Act.

N. B. These Directions may be used as well in the Case of Rectors and Vicars as Curates, and can (now) only operate as a Qualification for the Augmentation, but not by Way of Discharge from First Fruits and Tenths; the Time of returning such Discharging Certificates being expired.

The

Bounty of Queen ANNE. 183

THE foregoing List of small Benefices consisting chiefly of Curacies and Chapelries (never charg'd in the King's Books) having not yet been publish'd; It is thought proper that the same be added to this Account of the Proceedings of the Governors of Queen Ann's Bounty, as being returned into that Corporation, in order to their Augmentation: Which, together with near *Four Thousand other small Benefices* in this Kingdom, that have been certified into the Exchequer to be Livings with Cure of Souls, not exceeding the clear yearly Value of 50 l. respectively, and which have already been published (*), are All that have been hitherto certified as Benefices qualified to receive Augmentation according to the Rules of the Corporation; The great Numbers whereof, with the mean Provision that is left to Ministers officiating therein, (as well in several Market-Towns and other large Parishes, as in Places of lesser Account in this Kingdom) being duly considered, will sufficiently show the Necessity and Reasonableness of establishing some Method for the augmenting the Maintenance of the poor Clergy.

(*) *Liber Valorum & Decimarum, 1711.*

By a Computation made upon the Return of small Benefices to be discharged from First-Fruits and Tenths, (exclusive of the Livings herein before particularly mentioned) it appears that there are

Livings under 20 l. per Ann.	1216
Livings under 30 l. per Ann.	2122
Livings under 40 l. per Ann.	3043
Livings under 50 l. per Ann.	3826
Livings under 60 l. per Ann.	4446
Livings under 70 l. per Ann.	4891
Livings under 80 l. per Ann.	5082
Livings of 80 l. per Ann. and upwards.	4098
Livings charged with First-Fruits and Tenths about.	5000

We have compared the Matters of Fact contained in this Book, with the Entries thereof, in the Books of the Corporation, and do find the same to agree therewith.

rection, true Intent and Meaning of the said last mention'd Act of Parliament.

In witness whereof the said R. C. and the said Bishop of *Chester* have hereunto respectively set their Hands and Seals, and the said Dean and Chapter have, in their Chapter-House, fixed their Common-Seal the Day and Year above-written.
